NAIL BAR

Shellac Manicure

Enjoy the superior experience of shellac at our bespoke nail bar. Shellac is a 14 day+ hybrid polish, meaning it goes on like a polish but wears like a gel which allows it to be long wearing and durable, shiny and simply fabulous. The product is applied to your natural nails and it is cured through UV lighting, which means its dry and you're ready to go. Strengthening and nourishing treatments are also available before, during and after shellac.

LASHES AND BROWS

Semi Permanent Lashes

Semi permanent lashes are for those who want to have fuller, longer and natural looking lash extensions. Lash FX lashes are adhered to an individual natural eyelash with soft adhesive. They can last up to 4-6 weeks but look best with a eyelash top up every 2-3 weeks ensuring longer lasting and flexibility of the lashes. Different looks are available from natural to dramatic full on glamour. Eyelashes will naturally fall out as part of the natural hair growth cycle of an eyelash.

Russian Lashes

Russian volume lashes are a natural looking lash extension. If you are after more volume and thickness with a soft feathery look then this is an amazing way to add more flutter to your lashes without weighing down your lashes. Different techniques are used to create the look required. They can last 4-6 weeks and require maintenance every 2-3 weeks.
